

INSTRUCTIONS

on preparing and conducting a test in IMMUNOLOGY
for 2nd year students majoring in MEDICINE and PEDIATRICS

1. In accordance with paragraph 1.4. "Order No. 193" THE Department of medical biology with the course of Microbiology and Virology conducts intermediate certification in IMMUNOLOGY remotely in writing in the form of test tasks issued in Googl forms.
2. The Tests are based on QUESTIONS to PREPARE for the TEST, which are posted on the Department's website and were issued to each student at the beginning of the course. For the preparation of tests, we used lecture material and basic textbooks of disciplines (see the list of exam questions).
3. The Test is performed by students who have completed the discipline program. Admission to the test is carried out until June 6, 2020 inclusive. Students who do not receive admission to the test within the specified time frame, remain for the fall.
4. In advance (at least one day) before passing the exam or test in the distance format, the student must create a google account.
5. The test task for the test consists of 40 test questions. Each task offers from 1 to several answers, from which you must select the correct ones.
6. One task takes 1.5 minutes to complete (Example: 40 tasks \times 1.5 minutes = 60 minutes + 5 minutes for personal data processing. The total time for completing a test task with the specified number of tests is 65 minutes). After the time specified in the instructions, online access to the test will be closed.
7. The competition will be conducted strictly in accordance with the approved schedule. Students answer the questions of the test task strictly on their day according to the schedule. The time allowed for completing tasks is 65 minutes.
8. Heads of subgroups must provide the teacher with the email addresses of all students in their group on the eve of the test according to the schedule.
9. On the day of the test, the student will receive an email link to the Googl form, which will open for this student at the appointed time and will be closed in 65 minutes.
10. when performing the work, mark the correct answer by placing the cursor on it and clicking the left mouse button – a black dot will appear in the left field. Read the question carefully. There may be several correct answers.
11. When the response is complete, click " submit " – without This, your result will not be available for analysis.
12. Your email addresses and IP addresses are recorded by the system, so you will not be able to re-enter the test after clicking "Send".
13. Scoring Criteria: the student who completed the discipline program and scored 40% or more correct answers gets the Credit. If you set less than 40% of the correct answers, the student is sent to re-pass the test.
14. The results of the intermediate certification of students will be issued in the credit sheets of the BRS system and brought to the student through the headman.

The instruction was reviewed and unanimously approved at the meeting of the Department of medical biology with the course of Microbiology and Virology (Protocol No. 12 of 05.06.2020).

Head of the Department of medical biology
with the course of Microbiology and Virology
